Cosmetic Dermatology for Skin of Color

Procedures in Cosmetic Dermatology Series: Chemical Peels EBook

Cosmetic Dermatology for Skin of Color

Cosmetic Dermatology of Ethnic Skin and Hair is a comprehensive text that extensively examines cutaneous disease in persons with skin of color. This book encompasses the full spectrum of dermatologic disease with 26 distinct and unique chapters. It serves as a guide to the diagnosis and treatment of skin diseases for those populations with darker skin types. Vashi and Mbaabu’s Dermatoanthropology of Ethnic Skin and Hair provides an overview of medical, surgical, and cosmetic dermatology in addition to providing an extensive anthropological and basic science background to fully understand skin disorders in persons of color. Topics of discussion include anthropology of skin and hair, biophysical properties of ethnic skin, structure and function of the skin, physiological pigmentation, mucosal lesions, acne, rosacea, inflammatory disorders, infections, autoimmune disorders, connective tissue disease, hyperpigmentation, hypopigmentation and depigmentation, keloids, scarring, pediatric disease, alopecias, adrenal disorders, common cosmetic concerns and treatments, and cultural considerations.

Procedures in Cosmetic Dermatology Series: Chemical Peels EBook

Browse the fully searchable text online at www.expertconsult.com, along with expanded video content and downloadable images.

Aesthetics and Cosmetic Surgery for Darker Skin Types

This text documents the science that lies behind the expanding field of cosmetic dermatology for darker skin types so that clinicians can practice with confidence and researchers can be fully aware of the clinical implications of their work. New chapters have been added to this edition on photodamage, actinic keratoses, UV lamps, hidradenitis suppurativa, age-related changes in male skin, changes in female hair with aging, nonablative laser rejuvenation, and cryopiliosis, and chapters have been updated throughout to keep this at the forefront of work and practice. The Series in Cosmetic and Laser Therapy is published in association with the Journal of Cosmetic and Laser Therapy. Print versions of this book also include access to the ebook version.

Aesthetics and Cosmetic Surgery for Darker Skin Types

The best-selling text has been completely revised and revitalized in this fifth edition, with the authors once again encouraging general practitioners, medical students, general physicians and early stage dermatology specialist trainees and interns to relish the unique challenge of diagnosing and treating skin conditions. Clinical Dermatology, 5th edition contains over 400 high quality pictures and diagrams combined with colourful phrases to illustrate and entertain as it teaches. The text has been built on an appreciation as a “way of learning” and is as accessible a guide for the aspiring specialist. Readers are guided through the maze that too often lies between the presenting skin complaint and its final diagnosis and treatment. The authors have skillfully crafted an easily read text with enough detail to clarify the subject, but not enough to obscure it. This fifth edition contains new chapters on non-invasive physical treatment and dermoscopy, and new material on cosmetic dermatology, surgical dermatology, the skin and the psyche, and dermatoses of non-Caucasian skin. The text throughout the book has been updated in line with developments in the science and practice of dermatology. "A brilliantly succeeds in enticing you to look further. The writing is clear, and the joint British-American authorship avoids any parochial views." From a review of a previous edition in BMJ "a very well-presented bookan excellent aid for teaching. I recommend this book highly to individuals and departments..." From a review of a previous edition in J Derm Treatment “... provides a good overview of the structure and function of the skin as well as a good foundation for learning dermatology... well organized and includes a chapter dedicated to skin signs of systemic disease which is not covered in the other dermatology primers...” From a review of a previous edition in JAMA

Advanced Face Lifting

The Procedures in Cosmetic Dermatology Series presents an easy way to stay up-to-date on the hottest developments in cosmetic dermatology. Advanced Face Lift, the latest title to publish in this series, is organized differently from every other facelift book available. It allows for multiple facelift approaches to be analyzed by the reader. A DVD is included which clearly demonstrates the use of these techniques and how to get the best results. Features a wealth of color illustrations and photographs depicting cases as they appear in practice. Discusses common pitfalls and emphasizes how to optimize outcomes, enabling you to improve your technique. Highlights emerging topics in the field, with guidance on the newest developments in cosmetic surgery. Comprehensive DVD contains over 200 video clips of techniques and procedures as well as the expert’s hints and tips. Series Editor: Jeffrey S. Dover MD, A founding Professor of Medicine, Dartmouth Medical School, A associate Clinical Professor of Dermatology, Yale University School of Medicine, Consultant in Medicine, M Massachusetts General Hospital, Consultant Dermatologist, Dana Farber Cancer Institute, New England Baptist Hospital, A associate Chairman, Department of Dermatology, Beth Israel Deaconess Medical Center Boston, MA

Textbook of Cosmetic Dermatology, Fourth Edition
THE ULTIMATE SOURCEBOOK FOR UNDERSTANDING THE SKIN AND ITS APPEARANCE is a concise, well-written, and well-illustrated overview of the topic of cosmetic dermatology that will prove useful to all physicians who care for cosmetic patients. It is the first comprehensive book on the subject, and it is the best book on the subject. It is the most comprehensive book on the subject, and it is the best book on the subject.

Each part is divided into chapters, and each chapter is divided into sections. The sections are further divided into subsections. Each subsection is a detailed description of a specific aspect of cosmetic dermatology. The sections and subsections are arranged in a logical order, and each section and subsection is clearly labeled.

The book is extensively illustrated with over 2,000 figures, including diagrams, photographs, and illustrations. The figures are clear and easy to read, and they provide a visual overview of the topics covered in the book. The figures are also well labeled, and they are clearly labeled with arrows and other visual aids to help readers understand the information.

The book is written in a clear and concise style, and it is easy to read. The writing style is straightforward, and it is free of jargon. The book is also well organized, and it is easy to find the information you need.

The book is a comprehensive resource for physicians who care for cosmetic patients. It is a valuable addition to the library of any physician who sees cosmetic patients.

Complications in Cosmetic Dermatology

Micromanipulating the art and science of skin care, Cosmetic Dermatology covers a wide range of interventions and treatments designed to maintain and beautifully heal the skin and protect and improve damaged skin. A 'bible' of the field of cosmetic dermatology, this highly acclaimed text is now in its fourth edition. Focusing on the scientific details and why and how the biotechnology works, this is an indispensable guide for all involved in this rapidly expanding field.

Radiofrequency in Cosmetic Dermatology

Part of the practical and dynamic Procedures in Cosmetic Dermatology Series, Botulinum Toxin, 4th Edition, brings physicians at all levels of experience up to speed with today’s best injection techniques. This well-organized text provides current, authoritative guidance on popular procedures including muscle hyperplasty and deeper skin types, the therapeutic uses of botulinum toxins, and their future in dermatology. The renowned author team of Drs. Jean Carruthers and A. latex/Carruthers offers evidence-based, procedural how-to’s and step-by-step advice on proper techniques, pitfalls, and tricks of the trade—so you can successfully incorporate the latest procedures into your practice. Includes complete, clear descriptions and rationales for injection placement for facial and neck rejuvenation and hyperhidrosis, with high-quality videos demonstrating the techniques of injection. Addresses the differences in doses and particular characteristics among different botulinum toxin preparations in each chapter. Features a well-organized format with key points lists, pearls, and case studies as they appear in practice. Contains new chapters throughout, plus new information on injectable daxibotulinumtoxinA (RT002), topical botulinum toxin type A and benzyl alcohol. Includes many new images and procedural videos that depict exactly how to perform the techniques. Expert Consult eBook version included with purchase, which allows you to search all of the text, figures, and references from the book on a variety of devices.

Cosmetic Dermatology

The highly anticipated update of the complete textbook of dermatologic science and practice focusing on the care of patients with moderately to heavily pigmented skin - 21 new chapters with more than 900 photographs! Dermatology for Skin of Color, Second Edition is a comprehensive reference that thoroughly details every aspect of dermatologic science as it applies to skin color - from the development of the skin to the biology of hair and nails. All commonly encountered dermatologic problems of African, Asian, Arab, Native Americans, and other peoples are covered, as are other diseases with significant skin manifestations. This second edition is significantly expanded with 21 new chapters covering dermatology for genetic, adolescent, and pregnant patients, as well as dermopterin agents, viral infections, cutaneous manifestation of internal malignancy, neurofibromatosis, tuberous sclerosis, photosensitivity, light treatment for skin lightening, toxins and fillers, cosmetic practices in Mexico, effects of tattooing and piercing, allogeneic cell disease, drug eruptions, and the biology of oral mucosa. It also features many more clinical pictures and improved organization. Extensively illustrated with more than 900 full-color photos, Dermatology for Skin of Color provides comprehensive coverage of medical, surgical, and cosmetic treatment options, pediatric dermatology, differences between skin of color and Caucasian skin, differences between ethnic groups with skin of color, and important basic science information on the structure and function of skin in color. In addition, folk remedies and over-the-counter treatments specifically targeting this population are covered.

Plus, full-text online access lets you consult the book from any computer, download all of the images, watch online lectures, and more."—Book Jacket.

**Cosmetic Dermatology**

This book identifies the most common presentations and essential features of top dermatological conditions in patients with skin of color. It presents practical information in a case-based organization to assist dermatologists in clinical decision making, and discusses important cultural beliefs that must be considered in order to provide optimal care to patients with color. There is an increasing demand for dermatologic treatments in patients with skin of color, as well as an accompanying need for education and training in this quickly expanding market. Skin of color is a key topic within dermatology as people in this group are more likely to be diagnosed with sensitive, skin conditions in darker skin, and patients' treatment can be complicated by this. Clinical Cases in Skin of Color: Medical, Oncological and Hair Disorders, and Cosmetic Dermatology is a concise resource with practical guidance for board certified dermatologists and dermatologists in training.

Botulinum Toxin E-Book
This book provides the dermatologist with the essential information needed to properly treat all skin types cosmetically. All chapters have been written by female dermatologists with many years of personal experience in the field. The volume includes an overview of the systemic, intrinsic and extrinsic aging process, essential information on anti-aging skin care product ingredients, detailed discussions of patient selection and indications, and a wide range of cosmetic procedures. This concise book allows you - through its well-organized use of sidebars, photographs and illustrations - to extract any information you may need quickly and easily.

Daily Routine in Cosmetic Dermatology
This unique book is the only comprehensive guide to both surgical and nonsurgical cosmetic treatment of patients with darker skin pigmentation, including patients of African, Asian, and Latin descent. It is authored by a wide range of international experts in this field from all continents and edited by a world-renowned researcher and academician on the topic of pigmentation disorders. Practical, concise chapters cover all common surgical and nonsurgical treatment approaches and address the broad range of cosmetic issues facing patients with darker skin pigmentation. More than 350 full-color illustrations complement the text.

Botulinum Toxin
This well-illustrated guide provides concise descriptions of the most frequently encountered cosmetic skin conditions and essential information on commonly employed treatment procedures. The book opens with a description of skin evaluation systems and then documents etiology, pathogenesis, diagnosis, and treatment for various conditions, including cellulite, acne, hirsutism, and stretch marks. The second part of the book provides step-by-step guidelines on a range of cosmetic procedures, such as botulinum toxin injection, cryosurgery, electrosurgery, and injection lipolysis. The advice provided will be invaluable for all physicians who intend to incorporate these procedures into their practices. The book will also be of interest to established specialists in cosmetic dermatology wishing to update their knowledge and to all general dermatologists and plastic surgeons required to answer the numerous questions posed by patients seeking to maintain or improve the quality of their skin.

Non-Surgical Skin Tightening and Lifting
Cosmetic Dermatology: Products and Procedures provides a comprehensive compendium of the approaches cosmetic dermatologists can apply for their patients. It is structured by use within a daily routine so the dermatologist can provide a complete solution for their patients. It reviews skin physiology and the delivery systems of cosmetics, and how they affect the skin. It then looks sequentially at hygiene products for cleansing and moisturizing the skin, adornment products for colouring before looking at antiaging techniques for rejuvenating the skin and their applications as therapeutics. Using short, tightly focused chapters written by recognized experts, Cosmetic Dermatology: Products and Procedures covers cosmetic applications for hygiene, adornment and antiaging. Reviews the full range of cosmetic products and procedures. Includes the latest cosmetic advances in the field and addresses the broad range of cosmetic issues facing patients with darker skin pigmentation. More than 350 full-color illustrations complement the text.

Dermatoanthropology of Ethnic Skin and Hair
This book presents the latest advances in cosmetic dermatology. Beginning with an introduction to the physiology, structure and function of skin and hair, the following chapter discusses non-invasive imaging techniques. The next sections describe skin colour types, pigmentation, then the treatment of various dermatological conditions including pigmentary disorders, ultra-violet induced skin damage, dry skin, sensitive skin, acne, and skin aging. Two complete chapters are dedicated to hair and the scalp. This useful reference is co-authored by Michele Verschoore from L’Oreal, France, and includes more than 100 photographs, illustrations and tables, to enhance learning. Key points: Presents latest advances in cosmetic dermatology. Covers treatment of different dermatological disorders. Includes two chapters on hair and scalp. Co-authored by expert from L’Oreal.
